## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 5 and 7 are objected to because of the following informalities: Claims 5 and 7 refer to "said second submodule". However, there is no definite recitation of a second module. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is indefinite because it is unclear what constitutes "improvement" in center brightness or white point and thus the metes and bounds of claims 1 and 10 are indeterminable. Center brightness may be increased or decreased. Any change in "white point" must be defined in some clear manner so that is apparent what color change is actually taking place.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2851

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1-2, 4, 6, 8-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Okuyama et al. (6,783,244).

Okuyama et al. (6,783,244) discloses a projection device comprising:

A light source (1);

Modulation means (8R);

a first submodule (SC1) switchable from being in the light path or inactive for changing a color balance of the light projected based upon the image data;

Selection means for selecting the mode by the user.

6. Claims 1, 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Yasugaki et al. (5,479,224).

Yasugaki yet al. (5,479,224) discloses a projection device comprising:

An illuminated modulation means (21);

a first submodule (13) comprising a lens unit having multiple lenses movable from being in the light path or inactive and out of the light path

Selection means for selecting the mode by the user.

7. Claims 5 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and corrected for lack of antecedent.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
